

JOHN SAVAGE PROJECT

Project Description

The installation of the first Riverscreen by Pentair in Australia took place in October 2016, and was installed by Sale Wate Specialists in Victoria. Sale Water Specialists had a customer who wanted to run an irrigation sprinkler system but faced the problem of debris within the water. For some time the customer had even been looking to build something themselves to solve this issue, but no longer needed to build it after the experts at Sale Water Specialists recommended an ideal soultion for irrigating; the Riverscreen.
